WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (COR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have.

FEBRUARY, 1990 FIXED PRICE LIST #0026

I've just returned home from two weeks in California with several boxes of new material. I've included many new purchases in this months catalog. I hope you will find something attractive. As always if you don't see what you are looking for drop me a note or send me a want list I may have it in stock.

The Thomas Chalkley sale January 28 was another strong Copper sale. I managed to come home with my share but it took some work! Many of the coins listed here were purchased at one of the California sales. Others were purchased at Long Beach. I also recently purchased a small collection of very nice middle and late dates.

Half Cent collectors will note the rare offering of an 1802 C-1 Half Cent. Also a very nice AU55 1803 C-3. In early dates I have a nice AU55 1802 S-232 available as well a a choice EF45 1814 S-294. Middle dates both choice,(1822 N-3 AU58, 1825 N-9 AU58) and rare (38 N-16) are offered. Also the Anderson Dupont specimen of 1839/6 N-1 VF35! Many unusually choice and condition census late dates are available. Including nice examples of 43 N-4 and a choice MS 43 N-6 as well as a nice group of 1848s and an unusual offering of scarce 1851s.

My next show is the St Louis club show the weekend of Feb 23-25. Someone will be here to answer the phone if you need to reserve anything from this catalog during that time. Thanks.

Chris

****

1802 C-1 R6+ VG10 $19500.00
Sharpness of about F12 with smooth light brown color. There are some tiny rim bumps # 1,3,4 & 5 rev. A tiny nick on Liberty's neck, a few other trivial handling marks consistent with the grade. This exact coin is described and listed as the fifth finest known of the variety in Walter Breen's Encyclopedia of Half Cents p204. This example first offered in the Tom Elder auction of the R.H. Underhill collection 1/18/29:1116 Then in Stacks Anderson Dupont sale where it was purchased presumably by an agent for Mrs R. Henry Norweb. Evertually traded to Kenneth Bendell, Paul Weinstein, Philip Benedetti, Next appearing in a Pagins auction 3/13/67:12. Bowers Dennis Irving Lorg Collection:1021.

Head & shoulders above the wretched Nelson Page Aspen specimen sold in this years ANA sale by Bowers :1120, this is really an outstanding example of this rarity. Possesing good color and a sharp, fully identifiable reverse it will be a long time before a comparable example becomes available again. Accompanied by a letter from Walter Breen written in 1965, attesting to the coins authenticity and provenance.

COMMENTS

Two major auctions of Early Copper and the Long Beach conventon have kept thr past several weeks filled to overflowing. An uneventful flight into LAX and a quick rent a car trip to Superior Galleries in Beverly Hills got me started on the first task of the week, viewing and formulating bids on all the lots in the Dr Tom Chalkley Collection to be offered Sunday January 28th.

A collector can approach an auction sale somewhat differently than a dealer. In general a collector should approach the sale with the idea of adding a few especially desirable specimens to his collection. What makes a particular lot "especially desirable" will vary quite a bit from collector to collector depending on their specific area of interest, personal tastes and financial constraints (we all have them,though some collectors seem less constrained than others'). Items of special interest can be marked in the auction catalog prior to arrival at lot viewing. Suppose fifty items of possible interest have been marked, expect to lose half that number when the lots are actually viewed. Some coins just won't be as appealing in person as in the catalog. Others will be so much nicer than you expected you just won't be able to live without them. These become first priority items.

FEBRUARY, 1990 FIXED PRICE LIST #0026

Fill a room with more than a hundred and fifty collectors each of whom has twenty five "first priority lots to bid on and it becomes immediately apparent that not everyone can go home with everything they want. Consider yourself extremely fortunate if you are successful on one of every four lots you bid on. Often the same twenty or thirty lots will attract the attention of virtually every bidder present. These may be driven up to incredible prices. Have an idea of the maximum you will bid on a lot. Write it down in your catalog. Never bid more than TWICE your maximum. I'd say never bid MORE than your maximum. But I know that is futile advice. At an auction everyone bids more than they thought they would. People pay prices at auction far beyond what they might pay in a face to face transaction. It's OK to be one of them if you want to. But be aware of what your doing. Formulate an idea of the coins value in the relatively sane atmosphere before the sale. Don'try to figure out what it's worth to you while the auctioneer is in the process of running the bids. I've seen many collectors travel all the way across the country to an auction, buy only two lots and go home happy. You don't have to buy every thing you want right now today. There will be other sales. Don't buy something you really don't want just because it's cheap. You won't enjoy owning it just because you bought it right. Likewise don't pay an absolutely foolish price for something because you just have to have it right now. Having paid way too much will impair your enjoyment of it as well.

As a full time dealer my approach to a major auction has to be different. First I must look at every lot in the sale. During the course of the week I will have clients call asking information on different lots, grading, attribution and die state, value,etc. On some lots I will be executing bids for clients. Some lots I may have an interest in for my own collection. Naturally on over a thousand lots I will not have time to write down detailed descriptions of every coin. But I note anything at varience with the catalog in terms of grade, attribution or die state. At a large auction like this I come prepared to bid on every lot in the sale. So next to each lot description I mark down my maximum bid. I do this for several reasons. First I want to buy coins. It's many times more difficult buying Early Copper than it is selling it. Also specialist dealers are expected to make a market in their area of expertise. The auction company anticipates no trouble selling the choice EF45 1817 N-7 with mouse. But when the third S-187 in porous VG8 comes up the auctioneer might appreciate a bid, any bid. So I have one ready. In addition, no lot is so horrible, so ugly, so utterly without merit, that when it opens to the book at thirty dollars and you look down at your catalog to see the description "1798 S-187 VF20 with some light porosity" just crossed out, you won't be tempted to bid on it thinking - gee it can't be that bad... Yes, it can be that bad. And I have my fifteen dollar bid down in red ink just to make sure my optimism does nt cost me too much too often.

It normally takes several days to view as many lots (1,188) as contained in the Chalifoux sale. In Addition there were close to two hundred lots of Early Copper to be offered in the Dennis Irving Long sale by Bowers and Merena held in conjunction with the NASC/ Golden State convention in Pasadena. After arriving at Superior I got to work as soon as possible looking at lots. In general the lots were graded fairly accurately. However, in the past we have come to expect very strict grading in these Superior Copper sales. There were many instances in the past where I felt lots were undergraded by five points. This time I found myself having to lower the grade by five points. Still there were many very nice and very rare specimens. The quality of the Late Dates was especially impressive. Many were well pedigreed and unlike many of the earlier lots the grading was especially strict, perhaps too strict.

After the first days viewing at Superior my roomie Tom and I decided to head off early the next morning for the Bowers sale. The Dennis Long collection contained some very nice, very scarce material. I felt the grading was quite accurate overall. The lot viewing was handled in a relaxed friendly atmosphere. The first session saw a beautiful EF Chain Cent S-4 hammered down for $31,000. and a nice EF40 or better S-14 for a relatively reasonable $27,000. I bid in the Robbie Brown S-48 starred reverse for a client. The second session contained even more remarkable coins. The first attractive 1802 C-1 I've seen since the Norweb specimen two years ago came my way at $15,400. A lot of money but an exceptional coin. A really nice S-1 Chain AMERI went to collector Dick Punchard. I think Dick already has an S-1 But not one with the rare rim cud over TAT. This example had the cud. A nice VF35 1823 N-1 was hammered down for $1250. While a super MS63 1837 N-1 one of the better coins in the CC went for $2300 to one of the slab boys. What a waste. This coin will now be sent to PCGS et al slabbed at a high grade and sold to investors as a common. What a shame. but the slabbers were a real force here. And it will probably get worse before it gets better. Earlier a nice MS60+ 1854 Half Cent I had down to pay $300 for sold for $1200 to one of the slab boys. I guess us okies is just too dumb to understand this game.

Back to Superior and another few days of lot viewing. I know you all have heard me rave about how gracious and hospitable the Superior staff is before. Well they just are. They manage to be efficient and friendly at the same time. You really feel like an invited guest. The usual pre-sale party was thrown. The highlight of which was not only coin talk as usual but coins themselves. One pair of coins in particular. The sale contained a previous unknown 1794 S-50 graded AU50. Upon examination the coin proved to be every bit of that maybe more. Al Bennet brought his S-50 the finest known. Ex Dennis Loring, Jack Robinson, to the party and laidthe two coins down side by side. Al's is beautiful choice coin. But the new coin is probably better by an easy five points. Wow. This threw some oil on the pre sale fires of more than a few of those present.

On Sunday the battle began in earnest. Very little of note happened early on in the sale. A disproportionate number of the Half Cents and Early Dates went to dealers for re-sale. Up until the S-18a things were pretty quiet. But lot 171 brought $4400 for an AG3 coin. What a difference a tiny edge leaf makes! A superb choice VG S-39 was tucked unplated in to space 197. A few people noticed it though and it sold for an $8000 hammer price. Then came the S-50 a beautiful Cent cataloged as AU50. I believe will ultimately be upped to AU55. After some serious struggle it was hammered down at $35,000 to Jack Robinson acting as agent for the ultimate consumer a California collector. There really were some nice coins here. The S-52 and S-53 were both nice coins for the grade and at $1150 and $2000 perhaps in reach of a collector needing the variety. Of course the Robinson S-53 was nicer but not everyone has 35K to spend. Almost no one does! A major battle insued over the beautiful VF30(or better) 1798 S-163. I thought this was undergraded as a VF30 coin. A real golden tan beauty. The coin is tied for finest known. When the smoke cleared J.R. Frankenfield owned the prize at $13,500 not counting buyers commission.

The first really great middle date was the 1817 N-7 graded EF45 and at least that if not slightly finer. This went to the same buyer as above at $1900. I had my eye on lot 588 a beautiful 1819 N-4 I owe a favor on this one and it came my way at $460. There were two very nice 1822s, though I felt only the first was mint state. These went for $3000 & 2100 each. A nice VF30 1829 N-7 brought 2500 and a very nice 1837 N-14 graded MS60+ went for the same price.

Dr Chalkley had formed one of the finest collections of Late Dates ever. A comparable collection had not sold since the Robbie Brown Sale over three year ago. Prices have risen some since then apparently. Lot 912 had previously appeared in the Starr sale in 1984 as lot 444 it brought $286 then. This time the nice MS60 1844 N-3 brought $3960. Lot 915 sold as lot 987 in RSB for $253 here a bid of $2100 was required. Quite an increase but the the buyer of the above two lots was'nt collecting 1844s three years ago! I had my heart set on several of the 1847s. The 47 N-12 MS60 was the finest known with the rim break at star nine. A beautiful coin. I bailed out at $2300. I did come away with one prize the nice 47 N-15 EF45 or better one of the finest known of the variety. The late dates proved to be very strong. Collectors battling mightily with slabbers for the nicest coins.

I assume my readers know who and what slabbers are. I'm refering to dealers who submit all their coins to PCGS. At a sale such as this commercial dealers will come in and buy any coins EF45 or better they think will come back Mint State from one of the grading services. I think the grading services perform a useful function and are of some benefit to novice collectors/investors. At the very least,(it's like if you're being hit on the head with a sledge hammer, being hit with a rubber mallet feels better) it's an improvement over past abuses. But the fact is many of the coins we in EAC call AU50 will come back MS63 from the grading gurus at PCGS et al. A percentage may come back as MS65 thus creating a windfall profit for the slabber and encouraging him to continue playing Copper roulett. I'm not sure how long this will go on. Or how to solve it. But it is creating a problem.

Largely thanks to the efforts of Bob Grellman we are finally getting some clarity as to the real rarity (and lack of it) of many late date varieties. Here an 1850 N-24, a variety I believe to be rare sold for $3200. Two 1843 N-17s sold for $3000 and 1450 respectively. I look for this collecting specialty to gain in popularity. Nice coins, some very scarce can still be found at reasonable prices. Though for how much longer who can tell.

After the sale there was a Super Bowl party at Mark Goldbergs'. Delicious food, a cold beer or two, good company, a whole box full of new copper, and a bet on the 49ers. Hey it does'nt get any better than this!

Chris
